

Tages Capital Awarded Top PRI Score

PRESS RELEASE

London / Milan, August 2020

Tages Capital has recently been awarded top scores in the UN-backed Principles for Responsible Investment (PRI) 2019 Assessment Report of Environmental, Social and Governance (ESG) integration efforts. The highest score of A+ was achieved for our approach to ESG strategy and governance. In addition, we received an A+ for ESG integration across infrastructure.

Tages Capital has been a signatory of the PRI since June 2018 and, after a one-year trial, this is the very first report rated by PRI and we are proud of this achievement. This milestone marks the beginning of a constant path towards sustainability and the integration of the ESG principles both in our investments and in the day-to-day managing of our business.
