Waystone Management Company (IE) Limited is authorised in Ireland and regulated by the Central Bank of Ireland.

Accurate as of: 16 June 2023

What is this product?

Type

This is an investment fund established as an Irish Collective Asset-Management Vehicle (ICAV).

Objectives

Investment objective The investment objective of the Sub-Fund is to seek positive returns for investors by investing in global emerging and developed markets.

Investment policies The Sub-Fund will seek to achieve its investment objective by employing an investment strategy that focuses on the macroeconomic factors that influence the world's economies and the effects on those economies of government and central bank policies. The Sub-Fund will invest across various asset classes, with a primary focus on fixed income securities (i.e. bonds, warrants and other debt securities), currencies and foreign exchange and to a lesser extent, on equities (i.e. shares of companies), equity-related securities (i.e. securities which have the potential to convert into a share of a company) and equity indices.

The Sub-Fund does not have a particular industry or sector focus and is expected to hold 75% of its exposure in emerging markets based assets.

Kirkoswald Capital Partners LLP and Kirkoswald Asset Management, LLC act as the sub-investment manager and investment adviser respectively of the Sub-Fund.

The Sub-Fund may invest directly or use derivatives, such as swaps, options, futures and forward foreign exchange contracts, to gain indirect exposure to investments. A derivative is a contract the value of which depends on the change in price of an agreed-upon underlying financial asset, index or security. Some derivatives give the holder the economic effect of a long or short position in the underlying asset without actually having to buy or sell it directly. The Sub-Fund can take short positions in any asset class through derivatives, as well as hedging its exposure to an asset class by using derivatives to take an offsetting long or short exposure to the same or another asset class.

In broad terms, long positions mean that the Sub-Fund will benefit if prices go up, but lose if prices go down. Short positions mean the Sub-Fund will make a profit if the value of the investment goes down, but it will lose money if the value of the investment goes up. Unless the loss is capped or offset by another investment, such losses could theoretically be unlimited. Under normal market conditions, it is expected that the value of the long and short positions held by the Sub-Fund will each represent up to 800% of the Net Asset Value of the Sub-Fund at any one time.

In addition, the Sub-Fund may invest in open-ended exchange traded funds and other open ended collective investment schemes which provide exposures consistent with the above, including short positions in ETFs for hedging purposes. Investment in open-ended funds will be limited to 10% of the Net Asset Value. The Sub-Fund may, in certain circumstances, invest up to 100% of its Net Asset Value in cash, cash equivalents, bonds and money market instruments for cash management purposes. The Sub-Fund may also enter into repurchase

agreements and reverse repurchase agreements for efficient portfolio management purposes.

Benchmark The Sub-Fund is actively managed, meaning the Investment Manager actively selects and invests the securities in which the Sub-Fund invests with the aim of meeting the investment objective of the Sub-Fund, and is not managed with reference to a benchmark or index.

Redemption and Dealing You may sell your shares in the Sub-Fund on any Wednesday that is a bank business day in Dublin, Ireland and London, England, or if not a bank business day, on the next bank business day. If there are no more bank business days in that calendar month, you may sell your shares on the last bank business day in that month. You must submit your application to the Sub-Fund's Administrator before 1.00 p.m. (Irish time) three business days before the day on which you want to sell.

Distribution Policy Your shares do not pay income, but instead the Sub-Fund reinvests such income to grow your capital.

Launch date The Sub-Fund came into existence in 2022.

Fund Currency As your shares are denominated in EUR and the Sub-Fund is valued in USD, forward contracts are used to attempt to eliminate the effects of changes in the currency exchange rates against USD.

Conversion of units/shares You may switch your shares to the shares of another Sub-Fund of Tages International Funds ICAV free of charge.

Intended retail investor

This product is intended for investors who plan to stay invested for at least 5 years and are prepared to take on a medium-low level of risk of loss to their original capital in order to get a higher potential return. It is designed to form part of a portfolio of investments.

Term

The Fund is open-ended and has no maturity date. Subject to the liquidation, dissolution and termination rights of the board of the Fund as set forth in the Fund prospectus, the Fund cannot be automatically terminated. The manufacturer, Tages Capital LLP, is not entitled to terminate the product unilaterally.

Practical information

Depository The Sub-Fund's assets are held with its depository, Northern Trust Fiduciary Services (Ireland) Limited.

Further information Further information about Tages International Funds ICAV, copies of its prospectus, annual and half-yearly reports may be obtained free of charge in English. Write to the Sub-Fund's Administrator, Northern Trust International Fund Administration Services (Ireland) Limited, at Georges Court, 54-62 Townsend Street, Dublin 2, Ireland or visit www.InvestcorpTages.com. Other practical information including the latest share prices are available at the registered office of the Manager and the Administrator during normal business hours and will be published daily on the website www.bloomberg.com.

What are the risks and what could I get in return?

Risks

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

Performance scenarios

The figures shown include all the costs of the product itself, and includes the costs of your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product over the last 10 years. Markets could develop very differently in the future.

The stress scenario shows what you might get back in extreme market circumstances.

Unfavourable: this type of scenario occurred for an investment between 31 May 2014 and 31 May 2019.

Moderate: this type of scenario occurred for an investment between 27 July 2013 and 27 July 2018.

Favourable: this type of scenario occurred for an investment between 28 May 2016 and 28 May 2021.

Recommended holding period		5 years	
Example Investment		10,000 EUR	
Scenarios		if you exit after 1 year	if you exit after 5 years (recommended holding period)
Minimum	There is no minimum guaranteed return. You could lose some or all of your investment.		
Stress	What you might get back after costs Average return each year	6,047 EUR -39.5%	5,573 EUR -11.0%
Unfavourable	What you might get back after costs Average return each year	7,725 EUR -22.7%	6,594 EUR -8.0%
Moderate	What you might get back after costs Average return each year	8,943 EUR -10.6%	7,369 EUR -5.9%
Favourable	What you might get back after costs Average return each year	11,042 EUR 10.4%	8,850 EUR -2.4%

What happens if the Sub-Fund is unable to pay out?

If we are not able to pay you out what we owe you, you are not covered by any national compensation scheme. To protect you, the assets are held with a separate company, a depository. Should we default, the depository would liquidate the investments and distribute the proceeds to the investors. In the worst case, however, you could lose your entire investment.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- in the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario,
- 10,000 EUR is invested.

Example Investment 10,000 EUR	if you exit after 1 year	if you exit after 5 years (recommended holding period)
Total Costs	797 EUR	1,631 EUR
Annual cost impact*	8.0%	3.8%

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be -2.1% before costs and -5.9% after costs.

Composition of costs

One-off costs upon entry or exit		Annual cost impact if you exit after 1 year
Entry costs	5.00% of the amount you pay in when entering this investment.	500 EUR
Exit costs	0.00% , we do not charge an exit fee for this product, but the person selling you the product may do so.	0 EUR
Ongoing costs taken each year		Annual cost impact if you exit after 1 year
Management fees and other administrative or operating costs	2.72% of the value of your investment per year. This is based on an estimate of the costs.	272 EUR
Transaction costs	0.25% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell.	25 EUR
Incidental costs taken under specific conditions		Annual cost impact if you exit after 1 year
Performance fees	0.00% The actual amount will vary depending on how well your investment performs. The aggregated cost above is an estimation.	0 EUR

How long should I hold it and can I take money out early?

Recommended holding period: 5 years

This product is designed for longer term investments; you should be prepared to stay invested for at least 5 years. However, you can redeem your investment without penalty at any time during this period, or hold the investment longer. You may sell your shares in the Sub-Fund on any Wednesday that is a bank business day in Dublin, Ireland and London, England, or if not a bank business day, on the next bank business day. If there are no more bank business days in that calendar month, you may sell your shares on the last bank business day in that month. You must submit your application to the Sub-Fund's Administrator before 1.00 p.m. (Irish time) three business days before the day on which you want to sell.

How can I complain?

You can send your complaint to the Fund's Management Company as outlined at <https://www.waystone.com/waystone-policies> or under following postal address: 35 Shelbourne Rd, Ballsbridge, IE - Dublin, D04 A4E0, Ireland or by e-mail to complianceeurope@waystone.com.

If you have a complaint about the person that advised you about this product, or who sold it to you, they will tell you where to complain.
